# *Fleet Insurance from Insurewise*

If you are running two or more vehicles within your company, you may have the option to take out Fleet Insurance. More flexible than individual vehicle or private car insurance, Fleet Insurance drivers can be insured for all vehicles, including hire and loan cars.

Premiums are charged according to your personal risk and claims history, not on vehicle type.

With 'Any Driver' cover as an optional extra and full recovery service protection, you will find affordable Fleet Insurance combined with excellent service.

Why not take advantage of our Fleet Management Service (FMS) where we liaise with you on a monthly basis via e-mail so your fleet portfolio is always correct.

Our specialist fleet policies are underwritten by a range of the UK's leading insurers and, in many cases, offer immediate cover.

## **ClaimsApp Service**

Insurewise clients have the opportunity to take advantage of a FREE ClaimsApp service. The App provides a template to capture and record key information and images for any motor, property or liability claim saving you time, improving efficiency and potentially saving you money with your claim.

# *Liability Insurance from Insurewise*

Owning your own business has its responsibilities as well as its rewards, and it makes sense to protect your interests from expensive claims that could be seriously damaging to your cash flow. You should ensure that you are sufficiently covered for accidents involving members of the public and your own employees or their property. The way to do this is to take out a Liability Insurance policy.

Insurewise has access to a wide range of Liability insurers including underwriters who can cover every day and those hard to place risks of high exposure. In many cases we can offer immediate quotations and cover.

2. A commitment to ongoing quality – ensuring that you have exactly the cover you need
3. Hands on claims management with insurers and solicitors

5. Advice on trends and detailed action plans where possible
6. Conformity of contact – your own team and account handler
7. Assistance in controlling your risk

Service is an integral part of any relationship between a broker and their client. It is not simply a matter of processing a client's enquiry or acting as a post box between you and your insurers.

From the very beginning we have worked on the principle that it is better to provide service through technically competent staff. Your account handler will also be involved in the management of your account. Unlike most brokers the person who actually arranges the portfolio controls it, rather than passing all responsibility on to someone else.

# Our People and Vision

Many brokers are outsourcing claims these days, making it impossible to have effective control of claims or highlight future problems until it is too late.

No person is office-bound and we actively encourage meetings with clients to discuss developments and requirements face to face. In their absence from the office someone will always be available to help you: all of the team are usually contactable by us when away from the office via e-mail.

We fully appreciate the leap of faith needed to change brokers. We are happy to put you in touch with companies similar to yourselves who would be more than willing to speak to you regarding the levels of support and commitment we provide for them and, in particular, the excellent service we offer.

We do not seek to be the largest broker in the world. However, what we do seek and have achieved, is an enviable reputation for quality and commitment to our clients, all of whom we enjoy working with.
